

EVENING ART CLUB

A relaxed, adult-only space to make work at your own pace.

It doesn't matter what experience you have (or even any!) bring whatever you're working on, it could be painting, drawing or ideas in progress, and spend a couple of hours of focused making alongside others. Some basic materials will be provided if you need a hand to get going.

Local artist Kevin Threlfall will be there for guidance if you want it, but there's no formal teaching and no pressure, just time, space, and good company!
